+GF+ Clear PVC Pipe
For Metric & Imperial Systems

Clear PVC piping is a valuable addition to our PVC piping systems. We have both metric and imperial dimensions available to match either the +GF+ Metric PVC or the Schedule 80 PVC systems respectively.

We also have a range of clear fittings and valving available, as well as the clear cement & primer required for joining the piping systems.

Please contact Asmuss Group for information on our other piping and valving systems.

Imperial Clear PVC

Ideal for site glasses within Schedule 40/80 Hi-Strength systems, or other imperial pipework.

Refer to Schedule 80 price list for dimensionally compatible fittings.

Please contact us for chemical compatibility.

	CODE:	Size (NB)	Wall Thickness	Price
PVC-u Schedule 40	PPVCC/015	15mm	2.9mm	
	PPVCC/020	20mm	3.0mm	
	PPVCC/025	25mm	3.6mm	
	PPVCC/032	32mm	3.7mm	
	PPVCC/040	40mm	3.9mm	
	PPVCC/050	50mm	4.1mm	
	PPVCC/080	80mm	5.8mm	
	PPVCC/100	100mm	6.3mm	
	PPVCC/200	200mm	8.6mm	
3 metre lengths				

+GF+ Metric Clear PVC-u

This European range can be used as a visual inspection point for our secondary containment system as well as for standard site glasses.

This pipework has a nominal pressure rating of PN16 to 63mm and PN10 for larger sizes.

Refer to PVC-u Industrial PROFIT price list for dimensionally compatible fittings.

	CODE:	Size (OD)	Wall Thickness	Price
PVC-u PN16	192017105	16mm	1.2mm	
	192017106	20mm	1.5mm	
	192017107	25mm	1.9mm	
	192017108	32mm	2.4mm	
	192017109	40mm	3.0mm	
	192017110	50mm	3.7mm	
	192017111	63mm	4.7mm	
	192017088	90mm	4.3mm	
5 metre lengths
