Clear PVC Pipe

For Metric & Imperial Systems

Clear PVC piping is a valuable addition to our PVC piping systems. We have both metric and imperial dimensions available to match either the +GF+ Metric PVC or the Schedule 80 PVC systems respectively. We also have a range of clear fittings and valving available, as well as the clear cement & primer required for joining the piping systems. Please contact Plastic Systems for information on our other piping and valving systems.

Imperial Clear PVC

Ideal for site glasses within Schedule 80 Hi-Strength systems, or other imperial pipework. Please contact us for chemical compatibility.

	CODE	NB Pipe mm	Wall Thickness	Price
 <p>3 metre lengths</p>	PPVCC/015	15	2.9	
	PPVCC/020	20	3.0	
	PPVCC/025	25	3.6	
	PPVCC/032	32	3.7	
	PPVCC/040	40	3.9	
	PPVCC/050	50	4.1	
	PPVCC/080	80	5.8	
	PPVCC/100	100	6.3	
	PPVCC/200	200	8.6	

Metric Clear PVC-u

This European range can be used as a visual inspection point for our secondary containment system as well as for standard site glasses. This pipework has a nominal pressure rating of PN16 to 63mm and PN10 for larger sizes.

	CODE	OD Pipe mm	Wall Thickness	Price
 <p>5 metre lengths</p>	192017105	16	1.2	
	192017106	20	1.5	
	192017107	25	1.9	
	192017108	32	2.4
