

Metal Valves

Plastic Systems offer a wide range of metal valving suitable for industrial, reticulation, process, and water treatment plant applications. The majority of valves detailed below are available from stock, or within a few days of order. A larger range of configurations, and larger sizes are available on an indent basis for specific projects. Full technical literature is available on request.

Butterfly & Knife Gate Valves

Butterfly Valves: Cast Iron body one piece body, EPDM Seat, Stainless Steel Stem and 316 Disc. Available in either Wafer pattern, or Lugged Table E. Lugged Valves are suitable for end of line service. Lever Operated, gearbox option also available. Maximum Working Pressure 16 Bar.

Knife Gate Valves: Ideal for sewer and waste water applications. Stainless Steel 316 Body and Blade, PTFE Gland Packing, and soft seat sealing. For unidirectional flow, semi-lugged body Table E flange pattern. Maximum working pressure 10 Bar up to 100mm, 8 Bar for 150mm, 7 Bar for 200mm, and 5 Bar for 250 and 300mm. Higher rated fully lugged valves, and bidirectional options also available on indent.

DZR Brass Gate Valves

Manufactured and Independently certified by SAI Global to AS 1628.

Dezincification resistant brass body, stem and gate.

Female BSP Ends Available with either Blue Ductile Iron

Handwheel or Brass T-Handle. Maximum Working Pressure 25 Bar.
